

# PRODUCT LIFE CYCLE ANALYSIS

## Raw Materials

Screeentek International Ltd uses FSC accredited suppliers for wood-based materials. FSC is an international, non-governmental organisation dedicated to promoting responsible management of the world's forests.

## Manufacturing Process

Continuous improvement and lean techniques are constantly applied to the manufacturing process to ensure the business is operating in an efficient and eco-friendly manner. 100% of the manufacturing waste is recycled.

## Product Use

Screeentek International Ltd warrants that our in-house manufactured standard products are free from manufacturing defects in the materials or workmanship for a period of five years, subject to the products being used for the purpose for which they have been designed.

Exclusions to this guarantee include, but are not limited to, deterioration or failure due to normal wear or tear, variation in natural materials, other manufacturer's products supplied by us, and furniture that has been reconfigured by personnel other than those approved by Screeentek International Ltd.

## End Of Life

Products manufactured by Screeentek International Ltd can be broken down in to component parts and recycled accordingly. These materials may include wood, aluminium, steel, plastic and/or textiles.
